

Llanrhidian Primary School Spring 2022 Launch Day

'The Mad Matters Tea Party'

What an exciting start to a brand-new year and brand-new term at Llanrhidian! We have launched our exciting new topic which is 'The Mad Matters Tea Party'. Over this term the pupils will be investigating states of matter and how they can change as well as diving into the wonderful world of Fairy tales and Welsh folktales.

We launched our new topic with some epic experiments with the staff as well as welcoming the brilliant Dawn Thomas from Nature Days, who showed us some brilliant experiments with dry ice. All of the pupils were totally engaged and couldn't believe that dry ice could blow up a balloon! After our launch day the pupils then went away and thought about what they really wanted to learn about this term.
