**MAY THE
FORCE
BE WITH
YOU**

As always Llanrhidian Primary School welcomed back their pupils with a spectacular launch day. The staff planned a day of activities to activate the pupils' prior knowledge and to give them contexts in which to raise questions.

The topic of "May The Force Be With You" will focus on the power of force. But it is the children who will decide where their learning goes. ***How does food energy change into body energy? What would the world be like with no gravity? How can we make energy without damaging our planet? Which is the greatest natural force on earth? How do muscles work?*** These are just some of the excellent questions our pupils are raising.

We were delighted when a parent suggested a planetarium, and we linked up with the local community hall to give the pupils a real treat! This was an excellent example of parents, the community and the school all working together.

As some learners explored outer space, others were engaged with Dawn from Nature Days. They fired rockets, made rollercoasters, and discovered forces all around us.

Now the pupils are ready to plan their topic and develop their knowledge and skills through well planned activities that meet their needs and interests.

As the head teacher of this school, I am incredibly proud of the dedication that the staff continually show towards engaging our learners. As we all agree, ***"Learning is so serious, it has to be fun!"*** And this is something that staff do so well in Llanrhidian.

Whatever this year throws at us, we will deliver our very best to our fantastic pupils. Keep safe everyone.

Mrs Caswell
