- The students work in pairs.
- They have a sheet with the same English sentences to translate into Welsh, but Partner A has the translation of half the sentences (e.g. sentences 1 to 10), whereas Partner B has the translation of the other half (e.g. sentences 11 to 20).
- The 2 partners take turns in challenging each other with a sentence.
- After one partner has attempted the translation, his/her opponent shows him/her the correct answer and points are awarded (3 for perfect sentence, 2 for one mistake only, 1 if there are numerous mistakes).
- Limit game to 10 mins and when the time is up the person with the higher score wins.
