

What did you see?

Note down the highest number of each species that you see together at the same time. Work out a simple way to record how many you count. Why wouldn't you use a tally chart?

Name _____

 <p>Woodpigeon</p>	 <p>Female Male</p> <p>Blackbird</p>
 <p>Carrion Crow</p>	 <p>Female Male</p> <p>House Sparrow</p>
 <p>Starling</p>	 <p>Black-headed Gull</p>
 <p>Magpie</p>	 <p>Blue Tit</p>
 <p>Robin</p>	 <p>Feral Pigeon</p>
 <p>Great Tit</p>	 <p>Female Male</p> <p>Chaffinch</p>

Did you notice anything in particular about the birds you saw? Differences in how they moved or what they were doing? Or perhaps you managed to see and identify a bird not shown here? If so, note these things in the space on the back or on a separate sheet. For more information, scan the code or visit: rspb.org.uk/schoolswatch
